

*Non-Staining  
Rapid Dry Formula*

## SLIP & SLIDE

### INDUSTRIAL GRADE

- **High Viscosity**
- **Pure Silicone Residual Film**
- **Reduces Friction and Wear**
- **Heat Stable from -40°F to +450°F**
- **Eliminates Binding on All Surfaces**
- **Treated Surfaces Repel Moisture and Are Protected Against Corrosion and Wear**
- **Makes Surfaces Slide and Glide**
- **Safe on Wood, Plastic, Metal, Rubber, Glass, Fabric, and Laminated Surfaces**

*A pure, non-staining dry lubricant and release agent. Reduces friction and eliminates sticking and binding of metal, rubber, plastic and laminated surfaces. Repels moisture. Heat stable from -40°F to +450°F. Keeps sap and other build-up from sticking to saw blades. Lubricates paper cutters, saw blades, cutting tables and more. Contains no chlorinated solvents.*

• **CAN BE USED AS A LUBRICANT AND CLEANER**

#### **FOR USE ON:**

- **Conveyors**
- **Ovens**
- **Cutting tables**
- **Knives**
- **Hinges**
- **Sewing Machines**
- **Scissors**
- **Guide Rails**
- **Heating Sealing Equipment**

#### **FOR USE BY:**

- **Packaging Plants**
- **Printing Plants**
- **Garment and Textile Plants**
- **Molding Operations**
- **General Maintenance**
